## Three Centuries of Craftsmanship

Soy sauce is one of the world's oldest seasonings and condiments, dating back more than 2,000 years. Over the centuries, it found its way to Japan, where the traditional fermentation process was refined and perfected to create *shoyu*, the rich flavorful seasoning we know as soy sauce today.

### **It was there Kikkoman's story began.**

In the mid-1600s, three resourceful families set up a brewery in the farming community of Noda along the Edo river, not far from present-day Tokyo.

**And today, nearly 20 generations later, their descendants still run what has become the world's leading soy sauce brand.**

# KIKKOMAN®

## A Name That Tells A Story

The name Kikkoman has proved to be a fitting one. In Japanese, *kikko* means "tortoise shell" and *man* means "ten thousand." In Japan, the tortoise is a traditional symbol of steady progress and longevity since, according to Japanese folklore, the animal is believed to live as long as 10,000 years. Our founding families had a vision that their company would prosper and endure, and they were right. The centuries-old Kikkoman logo—a hexagon, representing the tortoise shell, with the character for "ten thousand" in the center—is one of the world's oldest brand-marks still in use.

## Our Beginnings in the U.S.A.

After World War II, Kikkoman began exporting in earnest. Seeing how Americans stationed in Japan had grown to love the taste of its soy sauce, Kikkoman established a marketing company in San Francisco in 1957 to fully break into the U.S. market.

The Kikkoman approach has been to localize management, be a good corporate citizen in its host markets, and grow and prosper alongside local communities.

Our products are steadily becoming an integral part of local food culture and generating new value. The name "Kikkoman" is now a byword for soy sauce as well as a mark of fine quality and dependability.

# SOY SAUCE 101

One of the world's oldest condiments, soy sauce dates back more than two millennia.

**2,500**  
YEARS

Traditionally brewed soy sauce is fermented and aged for up to six months like a fine wine.

**SEVERAL**  
MONTHS

**300+**  
FLAVORS

As a brewed soy sauce, Kikkoman has more than 300 flavor and aroma components.

**TIMELESS**

Designed by Kenji Ekuan in 1961, the Kikkoman dispenser bottle is a timeless design icon, so revered it's in the collection of the NY Museum of Modern Art.

With its serious umami factor, soy sauce has been used to enhance food products from bacon and jerky to chocolate and gingerbread.

## SOY SAUCE RISING

Soy sauce menu penetration has risen steadily over the last decade.\*

\*Datassentials Menu Trends Database, US Chains & Independents (2023)

Soy sauce has the perfect balance of the 5 tastes. No wonder it's a favorite "chef's secret" to enhance the flavor of virtually any dish.

## EVERYTASTE!

## GENIUS TIP: INFUSED SOY

Artisan condiments are a major foodservice trend. It's quick and easy to create your own infused soy sauces. Use them to add interest and cool-factor to sauces, marinades, dressings, and anywhere you want a hit of umami and flavor.

### 1 CHOP

ingredients like garlic, shallots, ginger, chiles or soaked dried Asian mushrooms.

### 2 STEEP

### 3 STORE

## FERMENTATION NATION

From pickles and kimchi to artisan brewing, fermentation is sweeping the nation. What's behind this megatrend? One word: flavor. Fermentation intensifies the flavors of natural ingredients, and soy sauce is a perfect example. The traditional fermentation process transforms water, wheat, soybeans and salt into one of the world's most umami-rich seasonings.
