TAKEOUT TIPS

JUST ADD SRIRACHA

There's almost no food that can't benefit from a hit of hot sauce! Including it with a to-go order is an extra "gift" that's sure to surprise and delight. Keep packets of Sriracha on hand to go with whatever you're serving—not just Asian food.

Examples:

Offer Sriracha Hot Chili Sauce Packets with breakfast sandwiches; burgers and fries; soups and salads; even burritos and tacos.

FRY TOSS

Kikkoman PC packets make it easy to create signature french fries that people can customize “to order” at home. Include one or two PC packets with an order of fries. Add directions that tell people to sprinkle the sauce over the fries, close the container and shake to coat.

Example:

Spicy Katsu Fries: A packet each of Kikkoman Katsu Sauce and Sriracha offer just the right amount for an order of fries, and they combine to make an irresistible sweet, spicy and tangy glaze.

SHAKER SALADS

To offer takeout salads that stay fresh and crisp, layer salad ingredients in a clear 16- or 20-ounce beverage cup. Fill a 2-ounce, clear-lidded portion cup with dressing or sauce, and place on top of salad ingredients. Cover with a domed lid. Add instructions to pour dressing over salad, close cup lid and shake to toss the salad.

Example:

Orange Chicken Shaker Salad: Layer cooked rice, edamame, grated carrots, cooked chicken (or firm tofu), diced cucumber and mandarin oranges in cup. Top with a container of Kikkoman No Preservatives Added Orange Sauce.
